

September 19, 2019

Dear Oshkosh Corporation International Suppliers,

You should have been the recipient of various communications from Oshkosh Corporation and/or its respective wholly owned subsidiaries regarding the Importer Security Filing (ISF) or what is sometimes called “10+2”. This program, **which currently only applies to ocean shipments**, has gone into full effect January 26th, 2010 and as such we required your continual assistance to ensure:

1. Oshkosh complies with this new US Customer requirement, thereby eliminating the possibility of penalties for non-compliance.
2. Oshkosh realizes an uninterrupted supply-chain, thereby ensuring continuous production and timely deliveries to our customers.

In order to comply, we ask that you pay very close attention to the Import Instruction, which can be found in the Import link below, by business unit, and the requirements within, specifically the section titled “10+2 / Importer Security Filing (ISF) Compliance.” Within this section we ask that you complete an ISF template for **each shipment** bound to the US. These templates, which are specific to the entity you have interactions with, are required to be populated and then forwarded to the noted email address **5 business days PRIOR** to the goods being exported. If you have problems locating these documents, please do not hesitate to contact the Corporate International Logistics Team at internationallogistics@oshkoshcorp.com or you may call 920.235.9151 and speak to one of the team members:

Ext. 25952 Director, Global Trade Compliance

Ext. 22831 Logistics Supervisor

Ext. 26430 Logistics Analyst

You may find additional information on this program at: <https://www.cbp.gov/>

Although we realize this mandate may create extra work for your organization, we thank you for your assistance and support.

Please go to this web address for international import and export routing instructions:
